Calcibo-D

Calcium 500 mg + Vitamin D_3 200 IU

Description

Calcibo-D is a combined preparation of Calcium (Calcium Carbonate) and Vitamin D (Cholecalciferol) specially designed to promote bone health.

Composition

Each film coated tablet contains Calcium Carbonate BP equivalent to elemental Calcium 500 mg and Vitamin D (Cholecalciferol) USP 200 IU.

Indications

Calcium and Vitamin-D is used for the treatment of osteoporosis, osteomalacia, rickets, tetany, and parathyroid disease. Also used in raised calcium requirement for children and adolescents at times of rapid growth, inadequate intake of calcium in the diet due to malnutrition, prevention and treatment of osteoporosis, disorders of osteogenesis and tooth formation (in addition to specific treatment), latent tetany and during pregnancy and lactation. It is also used as routine supplement and phosphate binder in chronic renal failure.

Dosage and Administration

One tablet twice daily with food or as directed by the physician.

Adverse Reactions

Calcibo-D is well tolerated. Mild gastrointestinal disturbances may occur.

Contraindications

Hypercalcemia and hyperparathyroidism
Hypercalciuria and nephrolithiasis
Hypersensitivity to the component of this preparation
Severe renal insufficiency
Concomitant digoxin therapy (requires careful monitoring of serum calcium level)

Drug Interactions

Concurrent administration of Thiazide diuretics may increase the risk of hypercalcemia. Calcium salts reduce the absorption of a number of other drugs such as Biphosphonates, Fluoride, some Fluoroquinolones and Tetracyclines.

Precautions

Caution should be taken in patients with Renal impairment, Sarcoidosis, Hypercalcemia and Hypercalciuria, Cardiac disease.

Use in Pregnancy & Lactation

Calcibo-D should be used considering the risk benefit ratio.

Storage

Store in a cool and dry place. Keep out of the reach of children. Protect from light.
